

I have been an active supporter of K-LOVE for several years, and K-LOVE is the only radio station that I listen to. It serves me as a resident of my community by playing the music I like, giving news headlines that affect me, and informing me of concerts and events that I would like to attend. If K-Love were displaced by a LPFM station, our rural area would not have a good contemporary Christian radio station to listen to. The service that K-LOVE offers is invaluable to this rural community, since we have a very limited choice of radio stations. Many of the regular stations play music and talk shows that are completely inappropriate for children, or adults for that matter! I can feel safe listening to K-LOVE because I don't have to worry about language or content. Please don't take away my K-LOVE!
